

Support Indian Education

for All

Vote FOR SB 390

Montana and Indian People's Action
Billings Office: 406-245-6106
Missoula Office: 406-728-5297

- Indian Education for All is a Montana Constitutional Promise (Article X, 1 (2)). Properly funding Indian Education for All is a Constitutional obligation.
- Indian Education for All is more than just a subject to be taught in schools. If properly funded and properly instructed it will:
 - Subvert Racism
 - Preserve American Indian Culture
 - Decrease the achievement gap between native and non-native children
 - Improve the quality of education in Montana
 - Montana will move forward in healing the wounds suffered over past few centuries
- Because Indian Education for All does not receive the proper funding:
 - Teachers are not sufficiently trained to teach the subject
 - Improper materials used to teach Indian Education for All
 - The history and heritage of Montana's first people are taught improperly or not at all

MONTANA PEOPLE'S ACTION The following people support an increase in the funding of Indian Education for ALL to be at \$50 per-ANB plus a minimum of \$1000 to be allocated to each school district. These funds should increase with the rate of inflation. The signatories also demand that these funds be devoted toward Indian Education for all and only Indian Education for ALL.
